**PIMCO** can producing compound with advanced lab equipment

Since 1983 Peyman Sanat Mohareke Sepahan Rubber Industries (PIMCO) started producing different kinds of rubber parts for Iron ore mine, Copper mine, Zinc and Lead mine and also Ceramics and Tile Company and Industrial Company.

Item	Test	Standard
1	Vulcanization	ASTM D 5289
2	Hardness	ASTM D2240
3	Tension	ASTM D412
4	Tear Strength	ASTM D624
5	Abrasion resistance	ASTM D5963
6	Ozone	ASTM D1149
7	Mooney viscosity	ASTM D1646
8	Resilience	ASTM D 1054
9	Adhesion	ASTM D429
10	Melting Range	ASTM D1519
11	Compression Set	ASTM D395
12	Aging	ASTM D573
13	Freezing Behaviour	DIN 53548
14	Dynamic Fatigue	ASTM D430
15	Chemical Test	AST D 471

### Why PIMCO?

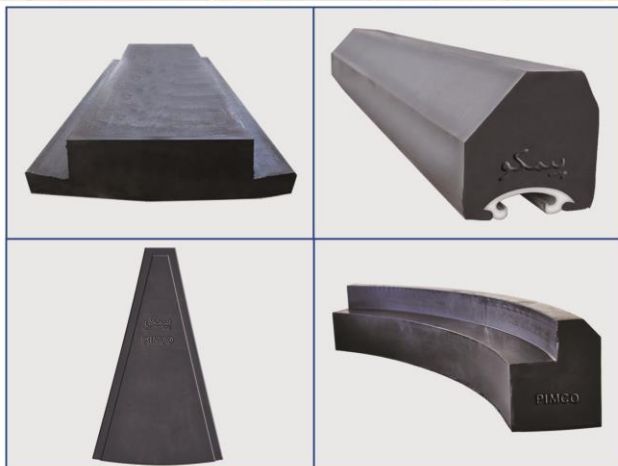

- Our product wear life's has guarantee.
- Accurate and periodic inspection
- Prediction the next mill lining changing date
- Easy installation and replacement
- Reduce chance of unplanned stoppages

● Anti-Abrasion Rubber parts for ceramic and tile industry

Designing and manufacturing rubber lining for continues and batch ball mills.

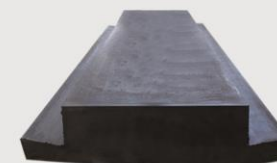

Our product are used successfully by tile and ceramic industrial such as Topcergroup ceramic, Alvand ceramic, Masoud ceramic, Gholdis ceramic, Alborz ceramic, Novin ceramic, Sadaf ceramic, Gol ceramic, Emarat ceramic, Bastan ceramic, Berelian Ceramic, Sedigh ceramic, Biston ceramic, Asia ceramic, Hafez ceramic, Aghigh ceramic, Zarin ceramic, Naz ceramic, khazar ceramic, Pars ceramic, Korosh ceramic, Arg ceramic, Sadra ceramic, Sadi ceram, Setareh ceramic, Eram ceramic, Iran Rak ceramic.

● Anti-Abrasion Rubber parts for mineral industry

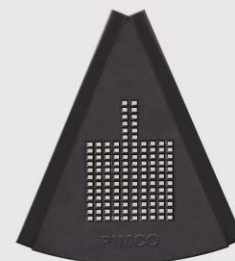

PIMCO has considerable experience in designing and manufacturing Rubber mill linings for Rod mill and Ball mills and also different type of liner for inside of cyclones , pump propeller.

**Lifter bar**

**Shell plate**

**Grate plate**

**Head plate**

**Segment**

**Filler ring**

● Anti-Abrasion Rubber parts for mineral industry

Our product are used successfully by Chadormalu Mining & Industrial Co (CMIC), Golgohar mining & industrial company, National Iranian Copper Industries Co (NICICO), Sangan iron ore, Mote gold mine and GHADER SANAT ZAGROS (GSZ).

● Rubber Lining

Rubber Lining can be applied to many surfaces to reduce wear, corrosion and contamination. These include tanks, sidewall, pipes and elbows. PIMCO can recommend the proper material for your lining requirements and can provide this service in the field.
